(1) *Submitted to His Highness.*

Draft for approval

I submit herewith for approval by His Highness a draft of an order sanctioning a loan of Rs. 15,000 to Mr. Shama Rao, Artist, to enable him to purchase certain machinery and set up a lithographic press to produce works of art, under Government supervision.

2. The subject was considered by the Standing Committee of the Conference and the details have been carefully discussed by the Secretary to the Industries and Commerce Committee with Mr. Yates, the Comptroller and the applicant.

3. The conditions embodied in the order seem to offer sufficient scope for the development of this new Industry, and the risk of loss on the part of Government seems very slight.

4. The proposal is a very small one but, all the same, a word of commendation is due for the spirit of co-operation evinced by the four officers who took part in developing the idea.

5. The draft Government Order may be graciously approved.

FROM

C. S. BALASUNDARAM IYER, ESQ., B.A.,
Secretary to the Mysore Economic Conference,
Bangalore.

To

C.S. Balasundaram Iyer, Esq., B.A.
Secretary to the Government of H.H. the Maharaja for
Education and Agriculture.

SIR,

I have the honour to forward herewith copy of letter No. 305 dated 13th September 1913 with enclosures, from the Secretary, Industries and Commerce Committee forwarding a copy of resolution passed by the Industries and Commerce Committee, at its meeting held on 30th August 1914, to the effect that Government may be recommended to - - grant a loan of Rs.15,000/- to Mr. M. Shama Rau, Artist, to enable him to purchase certain machinery and set up a lithographic press to produce works of art, and to state that the subject was considered by the Standing Committee at a meeting held on the 13th December '13, and the Committee passed the following resolution:

"That a recommendation be made to Government that the necessary machinery may be purchased by Government and installed in or near the Government press and placed under the general control of Mr. Yates that arrangements be made to allow Mr. Shama Rau to make use of the machinery and develop the business, he being entitled to the whole of the profits derived therefrom, after making due allowance for working expenses, interest on Capital, depreciation charges etc; that this arrangement be continued for a period of three years or such other period as may be decided upon as necessary to give the experiment a

fair

(2)

fair trial; that, if necessary, by way of special encouragement Government may forego interest and depreciation charges during the first two or three years; that at the end of this period Mr. Shama Rau either acting alone or in conjunction with others be given the option of buying up the machinery on suitable terms and carrying on the business as a private concern; and that a scheme on the above lines be prepared and submitted to Government within a fortnight's time, the details being worked out by the Secretary to the Economic Conference, the Comptroller to Government and the Superintendent Government Press, with the assistance of the Secretary, Industries and Commerce Committee."

In pursuance of the resolution of the Standing Committee the matter was discussed by Mr. C. Ranganatha Rau Saheb with the applicant Mr. Shama Rau, the Comptroller to Government, the Superintendent, Government Press and myself, and a scheme was drafted by the Secretary, Industries and Commerce Committee which, as revised by the Officers concerned, runs as follows:-

" (1) The plant is to be installed in a private building to be engaged by Mr. Shama Rau and worked by him under the superintendence of the Superintendent of the Government Press and the Secretary to the Economic Conference for a period of two years.

(2) The plant is to be purchased in England by the Superintendent, Government Press after obtaining Expert advice as regards the best machinery suitable for the purpose.

(3) The balance of the loan remaining after meeting all charges in connection with the purchase and transport of the machinery and other accessories as noted in the list furnished by Mr. Shama Rau should be held at the credit of the Secretary, Economic Conference, in the

(3)

the Mysore Bank and a monthly grant of not more than Rs.300/- should be made to Mr. Shama Rau out of the same for meeting the establishment charges of the Press.

(4) All receipts realised by the Press should be sent to the Mysore Bank and a monthly grant of Rs.50/ should be - - given to Mr. Shama Rau out of this sum towards his maintenance during the period he is working the plant under the present scheme.

(5) In case, the realisations permit of it, Mr. Shama Rau should be given grants out of them towards the necessary expenses he may have to undergo to carry out large orders.

(6) All applications for money should be made by Mr. Shama Rau to the Secretary, Economic Conference, who will - - sanction grants for the purposes above indicated and draw the sums required from the Mysore Bank for being given to Mr. Shama Rau.

(7) Mr. Shama Rau will be given credit for all receipts realised in the working of the Press less the amounts advanced to him for maintenance, the grants towards the working expenses, interest on loan advanced at 4% and reasonable depreciation charges. The amount at the credit of Mr. Shama Rau at the end of two years will be utilised towards the repayment of the loan now advanced.

(8) The terms of repayment of the balance that might remain unpaid after allowing credit for the portion of the receipts referred to in para 7 will be determined by - - Government after the termination of the period of two years during which the present scheme will remain in force.

(9) The plant should be clearly understood to belong absolutely to Government until the full amount of the loan is repaid.

(4)

(10) Mr. Shama Rau will be responsible to keep the machinery and plant in good working order and abide by the instructions that may be given to him by the Superintendent of the Government Press and Secretary, Economic Conference in working the scheme.

(11) Government will be at liberty to take charge of the - - plant at the end of two years if the results of previous working indicate that the industry could not be established on a sound commercial basis. This does not - - affect in any way the right of Government to take charge of the plant earlier, if it appears to Government that the business is not being satisfactorily conducted or the terms above referred to are in any manner infringed or violated."

Attention is invited to para 7 of the above scheme where in it is stated that interest at 4% on the loan advanced and - - - reasonable depreciation charges should be debited to the receipts realised in the working of the Press, while the Standing Committee has recommended that by way of special encouragement Government may forego interest and depreciation charges during the first two or three years. Under the circumstances I have the honour to suggest that the interest and the depreciation charges may be calculated and kept in account during the period of trial as laid down in the above scheme so that it may be clearly seen how far the business is really paying, and at the time of handing over the machinery to Mr. Shama Rau for carrying on the business as a private concern, the amount charged in the account as interest and depreciation charges may be remitted by way of special encouragement as recommended by the Standing Committee. ——— I am to request that early orders of Government may be obtained in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

C S Balasundaram
Secretary

Letter No.305 dated 13th September 1913, from the Secretary, Industries and Commerce Committee to the Secretary, Mysore Economic Conference.

With reference to your letter No.1163 dated the 15/17th June 1913, forwarding a petition dated the 16th May 1913, from Mr. M. Shama Rau, Artist, Chickpet, Bangalore City,- - praying for Government help to enable him to purchase certain machines for reproducing works of art, for opinion, I am directed to forward copies of the opinions of Messrs. Chatterton and Yates.

The application was considered by this committee at their last meeting on the 30th August 1913, and it was resolved by a majority of three that Government be recommended to grant a loan of Rs.15,000 to Mr. M. Shama Rau, Artist, subject to the fact that ~~that~~ it is expended and the plant purchased with it worked under the supervision of Messrs. Chatterton and Yates till the loan amount is repaid. A copy of the proceedings of the Committee embodying the discussion on the subject of this application is also forwarded for information.

APPLICATION OF MR. SHAMA RAO, ARTIST, FOR A LOAN TO PURCHASE PRINTING MACHINERY FOR CHROMO-LITHOGRAPHY:--

Mr. Balasundaram Iyer suggested that Government might take up chromo-lithographic work tentatively and employ Mr. Shama Rao to work it; and if it should prove a success and private enterprise be forthcoming later to take it out of the hands of Government, it might then be handed over. The loan applied for by Mr. Shama Rao did not come under the Taccavi Rules, as no security was offered.

Mr. Chatterton was of opinion, that £1,000 or Rs. 15,000 might be spent on machinery, and Mr. Shama Rao employed in the printing work; even if Mr. Shama Rao did not know quite enough of litho printing the Press Probationers who were now in England learning the art, might take up the work on their return. After some discussion the following proposition was put to vote, 6 voting for it and 3 against it. "That Government be recommended to grant a loan of Rs. 15,000 to Mr. M. Shama Rao, Artist, subject to the fact that it is expended and the plant purchased with it worked, under the supervision of Messrs. Chatterton and Yates till the loan amount is repaid".

Secretary, Industries and Commerce Committee.

(7)

Letter No. 162 dated July 25th 1913, from the Superintendent, Government Press, to the Secretary, Industries & Commerce Committee.

" I am in receipt of your letter No. 91, I.C.C., enclosures 3, dated 22/23rd July, 1913, asking my opinion as to an application from Mr. M.Shama Rao, Artist, who is praying for Government help to enable him to purchase certain machinery for producing works of art by means of chrome-lithography; and further, as to the necessity for the projected enterprise and as to how far the same requires Government aid.

2. This class of work is practically non-existent in Mysore State. All the requirements are met outside, either in Bombay and Calcutta or in England and Germany. If the business were started in Mysore and work of equal quality and at similar prices could be produced, the proposed outlay would be a safe one. But only under these conditions.

3. It must, however, be borne in mind that this is not a new industry. If Government advanced money in the way proposed, there would probably a cry made by existing firms in India to the effect that the Mysore Government were entering into competition with them, and handicapping them in their existing business. It would be a very different matter to finance a new industry or an indigenous one with a view development.

4. I have known Mr. M.Shama Rao for some years and talked with him occasionally over matters relating to printing. He is a very good artist. Whether he is a first-rate lithographic artist, I have not yet been able to decide. What is equally important is, is he a thoroughly capable lithographic printer? There is nothing in his appeal to indicate this. He may be a first-class lithographic artist; but if he is not also a capable printer, then I hesitate to recommend financial help in the matter. Unless he is himself able to erect his proposed plant, and run it, and instruct men how to use it, and produce work profitably, the scheme cannot be recommended. A lithographic artist can hardly be expected to be a printer also. The inference therefore, is that if Mr. Shama Rao is a good artist he cannot

[illegible] as an educational [illegible]; but not in any way of compensation.

7. Concerning the eventually this suggestion were carried out, the class of work mentioned by Mr. Ohama Pro might be quite a [illegible] should be more in the Government Press.

In the educational system, in my opinion, the application work [illegible] very useful on their return two years hence. This [illegible] currently amongst other subjects will find a wall- [illegible] [illegible]. The two Press Technicians who are [illegible] [illegible], provided the very necessary conditions given [illegible] [illegible], and services of Mr. Ohama Pro could be [illegible] [illegible] the necessary machinery could be laid down in the Government Press, [illegible] with private enterprise.

8. Should Government favourably view this aspect of the case, of work mentioned by Mr. Ohama Pro, which would bring Government into [illegible] given the right man to conduct the work), rather than in the class [illegible] that it is in this direction Government might expend money [illegible] to GCE on the work for want of plant and men. It seems, therefore, that Technical Secondary Purdy Office to be printed, because we were not in this way. Only recently I had to send so to Perry Page to the [illegible], and also the Korean Dept., what amount the Korean Dept. would be [illegible] [illegible] [illegible]

Secretary, Industries and Commerce Committee.

Letter No. 149 dated the 20th July 1913 from the Director of of Industries and Commerce to the Secretary, Industries & Commerce Committee

" In reply to your No. 2145 dated the 23rd June 1913, I have the honour to return the petition dated the 16th May from Mr. M.Shama Rao Artist, Chikpet, Bangalore, praying for Government help to enable him to purchase certain machinery for reproducing works of art. Mr. Shama Rao has furnished me with additional information which I append to this letter. He estimates that he will require a loan of Rs.15,000 for the purchase of plant and machinery, and for working capital to enable him to carry on the industry. He has also furnished a statement shewing that about Rs. 60,000 a year is spent on work which he will be able to undertake if he were supplied with the machinery he has ask-ed for. I have had an interview with him to-day, and he appears to have had the necessary practical experience to carry out the work he proposes to undertake. It seems to me that there is undoubtedly an opening for a printing establishment such as he wishes to start; but on this point, it might possibly be well to ascertain the opinion of Mr. Yates, the Superintendent of the Government Printing Press. Mr. Shama Rao is unable to furnish any security for the loan; and it is a matter for Government to decide whether they will grant him the loan on his personal security. If government are prepared to do this, I see no reason why Mr.Shama Rao should not be granted the loan, as it seems to me likely that he will be able to make a good use of the money, and will be able to establish a new branch of the Printing trade in Bangalore. Proceedings of the Government of His Highness the Maharaja of Mysore.

Compd
No 2631
G 7-8-14
8-8-14

Read:-

Letter No.1180 dated the 3rd April 1914, from the Secretary, Economic Conference submitting for orders a recommendation of the Industries and Commerce Committee to the effect that Government be requested to grant a loan of Rs.15,000/- to Mr. M. Shama Rao, Artist, to enable him to purchase certain machinery and set up a lithographic press to produce works of art.

Order thereon No. G 9420-4/Eco 166-13-52

Dated Bangalore, 20/5/14 ~~April 1914.~~

The Secretary states that the subject was considered by the Standing Committee of the Conference at its meeting held on the 13th December 1913 and that in pursuance of the resolution of the said Committee the matter was further discussed in detail by Mr. C.Ranganatha Rao Saheb with the applicant Mr. Shama Rao, the Comptroller to Government, and the Superintendent, Government Press, and submits the following scheme approved by the Sub Committee for the installation of a lithographic Press

(1) The plant is to be installed in a private building to be engaged by Mr. Shama Rao and worked by him under the superintendence of the Superintendent of the Government Press and the Secretary to

the Economic Conference for a period of two years.

(2). The plant is to be purchased in England by the Superintendent, Government Press after obtaining Expert advice as regards the best machinery suitable for the purpose.

(3). The balance of the loan remaining after meeting all charges in connection with the purchase and transport of the machinery and other accessories as noted in the list furnished by Mr. Shama Rao should be held at the credit of the Secretary, Economic Conference, in the Mysore Bank and a monthly grant of not more than Rs.300/- should be made to Mr. Shama Rao out of the same for meeting the establishment charges of the Press.

(4). All receipts realized by the Press should be sent to the Mysore Bank and a monthly grant of Rs.50 should be given to Mr. Shama Rao out of this sum towards his maintenance during the period he is working the plant under the ~~present~~ scheme.

(5). In case the realisations permit of it, Mr. Shama Rao should be given grants out of them towards the necessary expenses he may have to undergo to carry out large orders.

(6). All applications for money should be made by Mr. Shama Rao to the Secretary, Economic Conference, who will sanction grants for the purposes above indicated and draw the sums required from the Mysore Bank for being given to Mr. Shama Rao.

(7). Mr. Shama Rao will be given credit for all receipts realized in the working of the Press less the amounts advanced to him for maintenance, the

(14)

grants towards the working expenses, interest on loan advanced at 4% and reasonable depreciation charges. The amount at the credit of Mr. Shama Rao at the end of two years will be utilised towards the repayment of the loan now advanced.

(8) The terms of repayment of the balance that might remain unpaid after allowing credit for the portion of the receipts referred to in para 7 will be determined by Government after the termination of the period of two years during which the ~~present~~ scheme will remain in force.

(9). The plant should be clearly understood to belong absolutely to Government until the full amount of the loan is repaid.

(10). Mr. Shama Rao will be responsible to keep h the machinery and plant in good working order and abide by the instructions that may be given to him by the Superintendent of the Government Press and th Secretary, Economic Conference in working the scheme

(11). Government will be at liberty to take charge of the plant at the end of two years if the results of previous working indicate that the industry - - could not be established on a sound commercial basis. This does not affect in any way the right of Government to take charge of the plant earlier, if it appears to Government that the business is not being satisfactorily conducted or the terms above referred to are in any manner infringed or violated.

2. Government generally approve of the proposals made by the Sub Committee for the purchase of the machinery and supply of the same to Mr. Shama Rao,

except that as regards the interest to be charged they are of opinion that interest at 4% and reasonable depreciation charges may be calculated and kept in account during the period of the trial of the working of the press, so that it may, if necessary, be remitted by way of special encouragement, at the time of handing over the machinery to Mr. Shama Rao for carrying on the business as a private concern.

3. The cost on account of the above will be met from the sum of one lakh of rupees allotted for the grant of loans for agricultural and industrial purposes during the current year.

ITEM No. 56

Dear Sir,

With reference to para (2) of enclosed G. O., am I to understand that I must first obtain expert advice and submit it to Govt. before making the purchase; or does the Order permit me to purchase without further reference?

Yours sincerely,

Supt.

S. P. Rajagopalachari, Esq., B.A., B.L.,

Comptroller to the Government of
His Highness the Maharaja of Mysore.

To

The Secretary to Government.
Education and Agricultural
Department.

SIR,

With reference to Government Order No. 9420-4. G. Sn 166-13-54 dated 20th May 1914, sanctioning a loan of Rs 15000/- to Mr. M. Shamanna Artist out of one lakh of Rupees set apart in Government Order No. G 7228-30 G. M 67-13-211 dated 7th March 1914 for Agricultural and Industrial purposes, I have the honour to point out that para 2 of Government Order No. G. 2097-145- G. Sn. 53-12-239 dated 2nd September 1913 lays down that loans granted

Interregarding this has been quoted to Secy Edn in another communication

(20)

for such objects as the one in question will ordinarily be subject to a limit of Rs 10,000/-

I request therefore that you will be so good as to intimate if the loan sanctioned to Mr Shamsuddin is of a special character and if so the order sanctioning the loan may be kindly got communicated through the financial department.

I have the honour to be
Sir.
Your most obedient Servant.
Illegible
Assistant Comptroller
Jake
